In 750-1500 words (not including citations), please discuss the role of the judiciary in addressing the following:

Issues Presented by the Illinois Biometric Information Privacy Act

Illinois has one of the most comprehensive biometric information privacy acts in the country. *See* Illinois Biometric Information Privacy Act, 740 ILCS 14/1 (West 2008) (“BIPA”). The legislative findings referenced in BIPA show a recognition that “[biometrics, however, are biologically unique to the individual; Therefore, once compromised, the individual has no recourse, is at heightened risk for identity theft, and is likely to withdraw from biometric facilitated transactions.” 740 ILCS 14/5 (West 2008) (legislative findings). Two recent cases involving BIPA claims brought against Facebook and Shutterfly recently had motions to dismiss denied. Both cases involve identification by Facebook and Shutterfly of large numbers of individuals without their knowledge through digital scans of facial geometry in photographs that are uploaded by other persons who are users of the respective databases. How should courts proceed from here? Do you foresee a need for expert testimony regarding the technology or is this simply an issue of statutory construction that can be decided as a matter of law? Provide your rationale as to whether plaintiffs or defendants should ultimately prevail.

As a start for your research, you should read both decisions: *In re Facebook Biometric Info. Privacy Litig.*, 185 F. Supp. 3d 1155 (N.D. Cal. 2016); *Monroy v. Shutterfly, Inc.*, 2017 U.S. Dist. LEXIS 149604 (N.D. Ill.).
